

Pricing Information for Colorado Prescribers

TAZVERIK® (tazemetostat)

Pursuant to Colorado Revised Statutes Section 12-42.5-308, prescription drug manufacturers are required to disclose in writing to Colorado prescribers the Wholesale Acquisition Cost (“WAC”) of marketed drugs when engaging in prescription drug marketing. This disclosure provides the WAC price for the product identified below:

Product	Wholesale Acquisition Cost*	Package Size
TAZVERIK (tazemetostat)	\$17,746.00	1 Bottle

WAC is the manufacturer's published catalog or suggested list price for a drug product to wholesalers or distributors, as reported to third-party drug price compendia. WAC does not represent actual transaction prices or include discounts, rebates, or reductions in price. In most cases, the price paid by patients for TAZVERIK will be different from the product's published WAC. How much a patient will pay for TAZVERIK will depend on the patient's insurance coverage.

Colorado law also requires manufacturers to provide the names of generic prescription drugs from the same “therapeutic class” as the marketed products. Colorado defines “therapeutic class” as “a group of similar drugs that have the same or similar mechanisms of action and are used to treat a specific condition.” There are no generic prescription drugs in TAZVERIK’s therapeutic class as defined by Colorado law.

*Pricing as of February 14, 2022. Pricing information listed does not imply safety or efficacy of the product, and no comparisons should be made.
